

UNHP and Gaborone's National Centennial Scholarships Service Signed an Agreement on Academic Cooperation

On the 4th of February, Gaborone's Department of Tourism signed a cooperation agreement with the National Centennial Scholarships Service (UNHP) to promote tourism and cultural exchanges between the two countries.

The agreement signed by Gaborone's Director of Tourism Mr. Kenneth Kaunda and UNHP's Director Mr. Ali Ahmed Ali, aims to promote cultural exchanges, tourism, and economic cooperation between the two countries.

The agreement includes a tourism initiative to encourage Gaborone residents to vacation and explore the UNHP's cultural and historical sites, as well as to promote Gaborone as a tourist destination.

ASUHS Inaugurated Doctoral Training With Up to Five PhD Thesis Defenses

On the 3rd of February, the African Sustainable Agriculture Student Science (ASAS) held its first PhD thesis defenses in the Doctoral Training Program in Sustainable Agriculture.

Head of ASAS, Professor Dr. Ali Ahmed Ali, said that the doctoral training program was created to meet the growing sustainability of land, agriculture, and water issues which are faced by countries in southern Mediterranean. The doctoral training program is open to graduates from all countries in the region and is taught entirely in English and French.

The first defenses marked the beginning of doctoral training at ASAS, continuing for six years. Graduates will receive a PhD in Sustainable Agriculture, which is recognized by the Ministry of Higher Education and Research.

Learning Foundation of Women Leadership in Industry Through the 9th PACIFICA Program

From the 22nd to the 27th of February, as part of the Women in Industrial Progress (WIP) PACIFICA program, the Women's Industrial Progress Network (WIPN) hosted a training session for women leaders in the industrial sector in Kampala, Uganda.

The international immersion brought together 25 women leaders from WIP and representatives from Ugandan industrial companies, including Uganda Breweries Limited, Kampala Industrial Area Authority, and Uganda Textiles Limited.

The program included participants in capacity-building activities, expert-led presentations, and interactive team exercises, designed to support collaboration and effective leadership in industrial settings.

Tourado Chair Presented a Musical Performance Centering Tarab Al-Ala and Andalusian Music

On the 5th of February, the Tourado Chair at the Institute of Arts and Culture organized a musical performance centering Andalusian and Arabic music.

The performance, titled "Tarab Al-Ala and Andalusian Music", featured the orchestra's Andalusian Music Ensemble, which performed a selection of Andalusian and Arabic music. The performance was directed by the ensemble's Director of Artistic Direction, Jamil Ibrahim Al-Khatib, and featured 15 musicians.

The ensemble's current musical performance, which was performed in front of a live audience, is the first of a series of performances that will be held throughout the year.

ICW 2026 Brought Together Academia and Industry Experts for Discussions on Sustainable Manufacturing

From the 23rd to the 27th of February, the Waterville Science and Technology Engineering Association (WSTE) held its annual International Conference on Waterville (ICW) at the Waterville Science and Technology Center (WSTC). The conference brought together over 1,000 participants from academia and industry.

ICW 2026 aimed to promote cross-disciplinary dialogue and foster collaboration between academia and industry to address challenges in sustainable manufacturing and circular economy.

"From the Big Bang to Humankind" Symposium Kicked Off with a Five-event Meeting

To mark the International Year of the Internet Journalist "From the Big Bang to Humankind: The Evolution of Science Journalism" symposium kicked off with a five-event meeting on the 2nd of March at the Science Museum of Science and Technology (SMST) in Kampala, Uganda.

The discussion moderated by Dean Alexander Mwesigye Mugisha speaking to scholars, researchers, and journalists from Uganda and other countries about the evolution of science journalism.

Geoscience Lecture Discussed Human Impact on Earth's Systems

On the 4th of March, the Geoscience Department at the Institute of Arts and Culture (IAC) hosted a public lecture at the University of Pretoria. Dr. Lindiwe Nkosi "Beneath the Soil, the Story of Civilization" was delivered by Professor Dr. Thabo Mokoena, Head of the Department.

The lecture, which was attended by students, faculty, and members of the public, discussed the relationship between human activities and geological processes.

Participants received insights into long-term environmental processes and their implications for sustainability.

A Reading Marathon United Participants at Three MOOOK Centers

On the 1st of February, the MOOOK centers in Fort, Kasindu, and Mwai Kibaki organized a collective reading marathon, bringing together more than 1,200 participants from across the country.

The marathon, which began at 8:00 AM and ended at 6:00 PM, was organized by the MOOOK Centers Association (MCA) to promote reading and encourage participants to read books and share their thoughts and opinions.

The reading marathon was held in the three MOOOK centers in Fort, Kasindu, and Mwai Kibaki, and participants were divided into groups of 50 to 100 people, each group reading a different book.

UNHP Hosted a Delegation From the Institut Supérieur de Management

University Mohammed VI Polytechnic received a delegation from the Institut Supérieur de Management (ISM) on the 3rd of March. The delegation, led by ISM's Director General Professor Dr. Ahmed Benjelloun, visited the university's campus and met with its leadership and faculty members.

The delegation's visit was part of a cooperation agreement established in 2018, centered on a case study. The agreement aims to promote academic exchange and collaboration between the two institutions, with a particular focus on research and teaching.

The exchanges also addressed broader themes relevant to cooperation under African higher education, including digital transformation, sustainability, and entrepreneurship. The delegation's visit is part of a series of engagements between UNHP and international partners while enhancing skills in digital transformation, sustainability, and entrepreneurship.

Diplomacy and Crisis Management Simulation Triggered Disorder in Negotiation Exercises

The decade-crisis exercise held by the Institute for Diplomacy and Global Organizations, co-founded by Professor Dr. Ali Ahmed Ali, ended in disorder on the 4th of March, after a simulated crisis escalated in a series of UNHP Conference Rooms.

The exercise, which lasted for two days, involved negotiations, including over fifty Conference Rooms, with participants from the Institute for Diplomacy and Global Organizations, as well as from the Institute for Diplomacy and Global Organizations, and strategic decision-making.

The exercise was designed to test participants' ability to manage crises, negotiate under pressure, and make strategic decisions in a simulated environment, while enhancing skills in negotiation, leadership, and strategic decision-making.

DCP's Value Chain Processes Explored through a Training Program

The Waterville Education & Science, Technology, and Health delivered a training program for the Waterville Development Corporation (DCP).

Designed to meet TVSA needs as an SOE, the program introduced DCP participants, divided into two groups, to the value chain processes of the organization.

Free Medical Consultations Offered During a Health Caravan for TVSC Students

On the 5th of January, Students from the Faculty of Medicine Sciences (FMSc) collaborate with Students Association (SA) to organize a free medical caravan for students of the University of Science and Technology of Saint-Exupéry (USTSE).

The caravan, which took place on campus, provided students with free medical consultations to promote the overall physical and mental well-being of students, particularly those from low-income backgrounds.

Transformation Processes in Africa Discussed during the CSC seminar

On the 5th of February, the Centre for African Studies (CSA) organized a seminar of the Red Desk Zone Research Group (GRZR) on the theme "Transformation processes in Africa: Challenges and prospects". The seminar was held in the CSA's conference room and was attended by around 50 participants.

The seminar, led by Dr. Sabrina Martin, postdoctoral researcher at CSA, consisted of a case study from Dr. Martin's research on the transformation of the cocoa sector in Côte d'Ivoire, and a discussion with the audience on the issues raised.

MingKuai Channel Net Experiences Cycling Across 15 African Countries with UNHP Students

Student Affairs, in collaboration with UNHP Cycling Club, held two discussion sessions with the Mingkuai Channel Net, a group of cyclists who are traveling across 15 African countries, on the 3rd and 4th of March.

The sessions, which were held at the UNHP Cycling Club's headquarters, were attended by around 50 students, staff members, and alumni, and aimed to share experiences and challenges of cycling across Africa.

UNHP Received a Delegation From the University of Paris 1 Panthéon-Sorbonne for Academic Exchanges

On the 3rd of March, the University of Paris 1 Panthéon-Sorbonne received a delegation from the University of Paris 1 Panthéon-Sorbonne led by Professor Dr. Jean-Pierre Dubois, Vice-President for International Relations. Discussions were focused on academic exchanges and research collaboration.

The delegation's visit was part of a broader effort to strengthen ties between the two institutions. The discussions explored avenues for collaboration, including student mobility, joint academic programs, research initiatives, and cultural exchanges.

Communicating Science

Communicating Science #3: UNHS, a Researcher is Rethinking How Scientists Present Their Results Without the Help of Journalists

Today, June 27th, "Science" becomes the only newspaper that does not contain news and records zero readers. Scientific publications are not disappearing, but they are changing.

Startups Focused on Agroecosystems and Market Mentoring During a Bootcamp

The High Peak Tech Institute held the first edition of its bootcamp.

The first day focused on agroecosystems and the intersection of agriculture, business, and technology. Participants were divided into groups of 10 to 15 people, each group working on a different project. The bootcamp was led by a team of experts in agroecosystems and entrepreneurship.
